

# AIGI Injectable Packing Compound

**Shijiazhuang Liangcun Thermal Power China**  
Thermal Power Plant

## Application:

### Open Cooling Pumps

Previous with Mechanical Seals  
Single Spring Seals

2 main pumps plus Standby Pumps

### Maintenance Problem

Single Spring seals clogged up by dirty water  
Resulting in leakage  
High Maintenance Costs

AIGI-1010 white & black

### SOLUTION

**AIGI 1010 Injectable Packing**  
for easy installation  
replace Single Mechanical Seal  
First Installation in 2015

## Great Performance...

- Advanced stuffing box leakage control
- Injectable Sealing compound
- NO shaft damage anymore
- NO Flushwater required
- Re-injection under running conditions
